# DEWALT Extreme PZ2 Impact Torsion Bits + Holder

DEWALT Extreme Impact Torsion Pozidriv Bits have a 15° torsion zone that allows the screwdriver bit to flex rather than break, and the full fit head prevents rounding of the screw head and 'cam out' (bit head slipping out of the screw head due to the turning force). Supplied in a TOUGH CASE™, this is part of a connectable case system that is TSTAK™ compatible. Individual TOUGH CASES can be clipped together for easy transportation. Contains: 20 x DEWALT Extreme Impact Torsion Bits PZ2 x 25mm 5 x DEWALT Extreme Impact Torsion Bits PZ2 x 50mm 1 x DEWALT Impact Ready Magnetic Bit Holder
