

Controlled Dosage – No Waste

With a range concentrated to give up to 25 times the dosing power of ordinary admixtures, the range of Opti-Mix bottles cleverly contain an easy to use, self measuring, controlled dosage system, that provides the exact dose every time – no fuss – no waste.

1. Shake bottle well before use. Then push downwards on lid and turn anti-clock wise to remove.

2. Squeeze bottle to fill measuring cup.

3. Add Opti-Mix to a bucket of water and stir/mix well.

4. Dry mix other ingredients and add sufficient Opti-Mix solution until the desired consistency is obtained.

EVER BUILD

OPTI-mix®

SUPER CONCENTRATE BUILDING ADMIXTURES

The “Original” Formula

One little bottle goes a long, long way

The Opti-mix Range

The Opti-mix range of Building admixtures have been carefully formulated by removing most of the water found in conventional admixes to give up to a 1 to 25 highly powerful concentration. The result is less bulk to transport, less packaging, and less waste with the Opti-mix controlled dosage system.

Increasingly popular with both builders and merchants alike OPTI-MIX®, the world's first 1 to 25 concentrated Admixtures are now manufactured by Everbuild, the UK's largest independent manufacturer of building chemicals.

The OPTI-MIX® concentrate revolution has gathered pace in the last couple of years and with environmental and cost issues to the fore there's now a real rush to converting to the benefits of this unique range of powerful concentrates.

SUPER CONCENTRATE MORTAR PLASTICISER

OPTI-MIX MORTAR PLASTICISER is a highly concentrated air entraining liquid plasticising admixture which is 25 times the strength of conventional products.

- Improves workability
- Superior plasticising action
- Easy to use, controlled dosage

1 litre is equivalent to 25 litres of standard product

SUPER CONCENTRATE INTEGRAL WATERPROOFER

OPTI-MIX INTEGRAL WATERPROOFER is a highly concentrated waterproofing and plasticising admixture for sand and cement which is ten times the strength of conventional products.

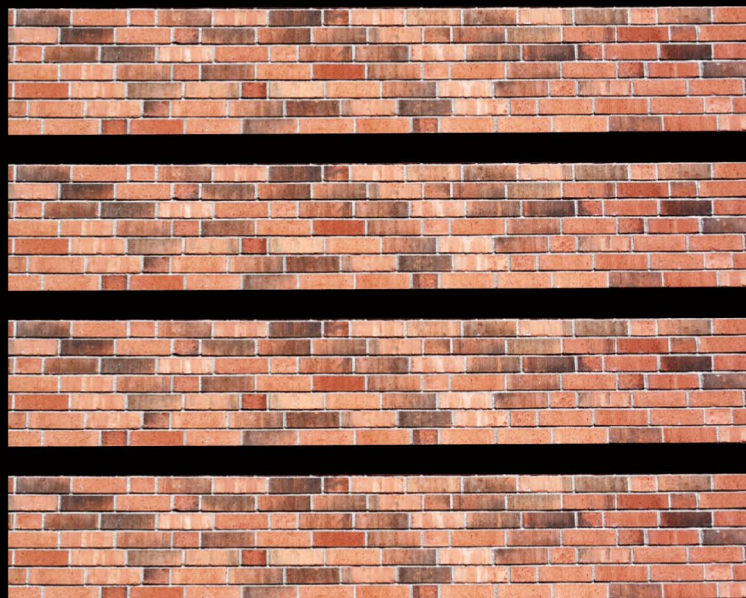

- Long term water resistance
- Salt inhibitor
- Easy to use, controlled dosage

1 litre is equivalent to 25 litres of standard product

OPTI-mix®

BENEFITS

- 1 to 25 Concentrates
- Easy to use controlled dosage
- Environmentally friendly - Reduced packaging
- No spills, no fuss, no waste

SUPER CONCENTRATE RENDER ADDITIVE

OPTI-MIX RENDER ADDITIVE is a 3 in 1 plasticiser, waterproofing agent and salt inhibitor. The super concentrated formula has been specifically designed for use with renders.

- Waterproofs, plasticisers & retards
- Salt inhibitor
- Easy to use, controlled dosage

1 litre is equivalent to 25 litres of standard product

SUPER CONCENTRATE CEMENT COLOURANT

OPTI-MIX CEMENT COLOURANT is a concentrated one shot cement colourant that provides a permanent colour to all types of mortars, rendering, concrete and pointing. Shading can be adjusted to give a wide variety of colour depths.

- Permanent Cement
- Colouring For Use In Mortar and Concrete
- Even Colour Distribution
- Easy To Use, controlled dosage

1 litre is equivalent to 5 litres of standard product

SUPER CONCENTRATE ACCELERATOR & FROSTPROOFER

OPTI-MIX ACCELERATOR & FROSTPROOFER is a fast acting formulation that is super concentrated and protects in below freezing temperatures. Easy to use, no waste.

- Fast acting formula
- Protects in sub zero temperatures
- Easy to use, controlled dosage

1 litre is equivalent to 5 litres of standard product

One little bottle goes a long, long way
