

40MM COMBINATION PADLOCK

How to set personal combination

Your new resettable combination padlock
preset at the factory to 0-0-0-0

Use the following steps to set your own code

Step 1 - Set dials to 0-0-0-0
pull out the shackle

Step 2 - Turn shackle 90 deg aligning the
notch to the other slot and press down
as far as it will go.

Step 3 - While holding the shackle down set the
dials to your combination.

Step 4 - Release shackle and return to regular
Position your new combination will now
work
