- Household Cleaning – Remove dirt or tarnish from hardware, fittings, or kitchen tools
- Craft & Modelling Work – Detail small items or polish handmade pieces
- Automotive Detailing – Buff and restore vehicle trim, badges, and other parts

How to Use

- Choose the accessory suited to your task—felt wheel, wire brush, or polishing pad
- Attach it securely to your rotary tool using the provided mandrel
- Adjust tool speed based on material type and accessory being used

- Gently apply pressure and allow the accessory to do the work
- Inspect your results and repeat the process as needed for a clean, polished finish

Specification

- Total Pieces: 20
- Material Types: Felt, nylon, steel, emery
- Compatibility: Fits most major rotary tool brands

Frequently Asked Questions

- Is this set compatible with Dremel and other rotary tools? – Yes, the accessories fit most rotary tool models with standard mandrel attachment.
- Can I use it on glass or delicate surfaces? – Some felt tips may be suitable for light polishing, but always test on a small area first.
- Are the accessories reusable? – Yes, most items can be reused several times depending on usage and material type.
- Is this kit beginner-friendly? – Absolutely. The accessories are easy to use, making it ideal for users of all skill levels.
- How should I care for the accessories? – Clean components after use and store them in a dry space to maintain their condition.

Why Choose the Blue Spot Tools 20-Piece Set?

This comprehensive rotary tool accessory kit is perfect for tackling a variety of tasks with precision and ease. With cleaning, buffing, and polishing solutions all in one set, it saves time, boosts productivity, and delivers excellent results—whether you're restoring metal parts, working on models, or performing detailed DIY maintenance.

The Blue Spot Tools Rotary Tool Cleaning and Polishing Set is your go-to solution for fine finishing and everyday restoration work. Compact, reliable, and built for performance, it's a powerful addition to any toolbox.
