tomatoes, fruits & vegetables

DOFF® TOMATO FEED

is a top-quality liquid tomato food with seaweed & magnesium (0.012%Mg) to encourage strong, healthy growth and promote high yields of top-quality full-flavour tomatoes. It is ideal for the feeding of courgettes, aubergines and all flowering plants.

DIRECTIONS FOR USE:

INNER CAP = 15ml. Mix 1 inner capful (15ml) of Doff Tomato

Feed into 4.5 litres of water and apply to the base of the plant, avoiding the foliage.

IN THE GREENHOUSE: when the first truss has set, apply the feed every 7 days. 4.5 litres should be sufficient for 9 plants. Feed every 3-4 days when the second truss has set.

OUTDOORS: when the second truss has set, apply the feed every 10-14 days. 4.5 litres should be sufficient for 8 plants.

GROWBAGS OR RING CULTURE: use at double-strength and feed every 7 days.

HIGH PERFORMANCE RECOMMENDATIONS: for higher yields, the above rates can be applied twice as often i.e. in the greenhouse, in growbags or in ring culture, feed every 3-4 days; outdoor tomatoes can be fed every 5-7 days.

FERTILISER DECLARATION

EC Fertiliser - NPK fertiliser solution 4-5-9

Nitrogen (N) Total	4.0%
Ammoniacal Nitrogen (N)	1.5%
Ureic Nitrogen (N)	2.5%
Phosphorus Pentoxide (P₂O₅) soluble in water	5.0% (2.2% P)
Potassium Oxide (K₂O) soluble in water	9.0% (7.5% K)

Additional Information for secondary nutrients where the content falls below the stated minimum requirement of Regulation (EC) No. 2003/2003 relating to fertilisers: Water soluble Magnesium Oxide (MgO) chelated by EDTA 0.02%

STORE OUT OF DIRECT SUNLIGHT IN A COOL PLACE

Store between 0°C and 30°C

General Advice

Keep container upright during storage and transit. Store in a safe dry place away from children and pets. Avoid applying in direct sunlight this could cause scorching of plants. Wash hands after use.
