

BASKET & TUB FEED

Doff® Basket & Tub Feed is a well balanced fertiliser for any type of basket or tub, slowly releasing nutrients to promote healthy growth, rich green foliage and bigger blooms. Improves soil and stimulates root growth for improved uptake of nutrients and water.

Directions for Use:
Direct Ground Application
Scatter evenly and fork the grains gently into the top of the soil. Water as normal after application, keep soil moist but take care not to over-water.

Mixing in containers/planters
Mix thoroughly through compost before planting. Water as normal after application, keep soil moist but take care not to over-water.

APPLICATION RATES
Mixing in containers/planters
Mix grains with compost prior to planting, use approximately 25g (one handful) per 10 Litres of compost.

Applying to soil
Sprinkle approximately 75g per square meter and gently fork grains into the soil.
