

A blend of slow releasing granules plus fast acting plant food providing nutrients when plants need it most.

How & when to Use:

Use all year round. From early Spring-late Summer, gently mix the granules into the top soil & combine by mixing thoroughly with compost. From late Autumn-Winter use as a top dressing on the top 2cm of compost by sprinkling and lightly forking in.

Dosage: One handful is approximately 25g-30g.

Directions for use:

Containers & Hanging Baskets: For every 10 litres of compost sprinkle between 25g-50g of plant food and mix thoroughly and evenly in the compost. For top dressing throughout the season, sprinkle between 5-10g every 10-12 weeks. Do not over feed. Use lower dose rates for pot sizes greater than 20 litres.

Open ground new fruit & veg or annual bedding plants:

Sprinkle approximately a tablespoon or 5-8g in and around the planting hole and mix in thoroughly with the soil prior to planting.

Established flowering shrub bushes & fruit trees:

Sprinkle 50g evenly per every metre of tree height to the edges of the areas covered by the branches.

New trees, shrubs, roses & fruit bushes: Sprinkle up to 25g per 10 litres of compost around the roots. Cover with soil. Where the soil or compost is not replaced annually, add to the surface and mix in thoroughly.

Established flowers and vegetables in the garden:

Sprinkle onto beds and borders between plants and uniformly cover the whole area. Lightly hoe or fork in. Use 50g per sqm.

1kg^e

EC FERTILISER – NPK Fertiliser blend, 10-5-11 + (6CaO, 4MgO)	
Total Nitrogen (N)	10%
Nitric Nitrogen (N)	2.2%
Ammoniacal Nitrogen (N)	7.8%
Phosphorus Pentoxide (P ₂ O ₅) soluble in water	4.5% (2.0% P)
Phosphorus Pentoxide (P ₂ O ₅) soluble in neutral ammonium citrate and water	5% (2.2% P)
Potassium Oxide (K ₂ O) soluble in water	11% (9.1% K)
Calcium Oxide (CaO)	6% (4.3% Ca)
Magnesium Oxide (MgO)	4% (2.4% Mg)
Magnesium Oxide (MgO) soluble in water	2% (1.2% Mg)
Sulphate (SO ₃)	27.0% (10.8% S)
Sulphate (SO ₃) soluble in water	26.0% (10.4% S)

Contains micronutrients which are essential for plant health.

Cautionary notes:

Always replace lid after use. Do not exceed the stated application rate. Increasing the dosage may damage certain plants. Avoid granules coming in direct contact with stems and foliage. Store in a safe, dry places, away from children, animals and feedstuffs. Wash hands after use. Do not eat.
