

### SPECIFIC PRODUCT INFORMATION

**Sow**  
March - October When soil is moist (germination from 10 days)

**Patch Repairing**  
Mow the area as short as possible before raking the worn area to remove any worn grass, stones, weeds or rubbish.  
Sow Doff® Patch Fix Plus up evenly and thinly at 30 g/sqm; water the patched up area gently until the area turns a dark brown and the mixture is moist.  
When it dries to a light brown, add more water.  
Allow establishing and do not mow until grass reaches a minimum of 5cm. Resume normal mowing practices.

**Water & Fertilise**  
Keep moist throughout the season and feed with a balanced fertiliser. We recommend Doff® Liquid Lawn Feed.

**Storage Conditions**  
Store seeds in unopened pouch and use within season of purchase. Avoid exposing to multiple temperature fluctuations. Keep out of reach of pets and children. Seeds within Doff® range have been packed to the highest quality standards.

<b>UK: COMPOUND FERTILISER with Iron 3-1-3 (1)</b>	
Nitrogen (N) Total	3%
Phosphorous Pentoxide (P <sub>2</sub> O <sub>5</sub> ) soluble in neutral ammonium citrate	1.0% (0.4%P)
soluble in water	0.1%(0.04%P)

# PATCH FIX PLUS

Doff® Patch Fix Plus is designed to work in all conditions anywhere around your property. Fast acting and low maintenance, simply apply to barren patches, add water and allow it to grow.

How it works – Patch Fix Plus works faster and more effectively than other similar products. The formulation provides the ideal atmosphere for the grass to germinate, while activating the root system to strengthen and knit into the area.
