

Doff® Ready to Use Path & Patio Weedkiller Spray MAPP 17813, PCS 05909 is a ready to use spray for the control of annual and perennial weeds (grasses, docks, nettles, willow herb, dandelion). It is a systemic weedkiller that works by transporting the weedkiller down to the roots. It is inactivated immediately on contact with the soil and is broken down by the soil bacteria to leave no soil residues.

FOR USE ONLY AS AN AMATEUR WEEDKILLER

For use on unwanted vegetation.

READ ALL INSTRUCTIONS BEFORE USE

INSTRUCTIONS FOR USE

Control of annual and perennial weeds (grasses, docks, nettles, willow herb, dandelion).

When to use Spray when weeds are actively growing and have adequate leaf area to absorb the spray. Treat established perennial weeds at the start of flowering for best effect. Spray nettles and ground elder when new leaves have fully unfolded in late spring but before they show any signs of yellowing which is usually in early autumn. Use on brambles to kill top growth and roots; spray small shoots directly or apply after cutting when regrowth has begun and new shoots are about 15cm long. If brambles are large and access is difficult for spraying, cut down the plants and spray the re-growth at a later date.

A period of at least 8 hours, preferably 24 hours, free of rain is required after application for satisfactory results. Do not spray in windy weather. Doff® Ready to Use Path and Patio Weedkiller kills most weeds with a single application. Some tough weeds may need a repeat treatment after 3-4 weeks if regrowth appears. Weeds may show the first effects of treatment after a few days or up to 4 weeks later depending on the weather and type of weed. Leave weeds for at least 7 days before cultivating.

Where to use Wherever unwanted weeds are to be controlled.

How to use Turn the spray nozzle to the 'on' position. Spray the whole plant especially the leaves until thoroughly wet but avoid run-off. When finished turn spray to 'off' position.

SAFETY INFORMATION

Protection during/in use: Read the label before use. KEEP OUT OF REACH OF CHILDREN. If swallowed seek medical advice immediately and show this container or label. Keep away from food drink and animal feeding stuffs. KEEP OFF SKIN. WASH SPLASHES OFF IMMEDIATELY. WASH HANDS AND EXPOSED SKIN AFTER USE. If medical advice is needed, have product container or label at hand. Dispose of contents/container to a household waste recycling centre as hazardous waste except for empty containers which can be disposed of by recycling. Contact your local council for details.

**TO AVOID RISKS TO HUMAN HEALTH AND THE ENVIRONMENT, COMPLY WITH THE
INSTRUCTIONS FOR USE** **MAPP 17813 PCS No. 05909**

DO NOT SPRAY HEDGE BOTTOMS. DO NOT use on lawns. Avoid spray contacting nearby plants and grassed areas. To avoid possible transfer to lawns and green areas do not walk on treated areas until the spray has dried. Allow sprayed vegetation to die back before clearing. Extreme care should be taken to avoid spray drift onto lawns and other desired plants as this may damage or kill them. Rainfall within 6 hours of application may reduce effectiveness and require re-treatment.

Environmental protection Direct spray away from ponds and other surface water bodies. DO NOT EMPTY INTO DRAINS DO NOT CONTAMINATE WATER with the product or its container.

Storage and Disposal

KEEP IN ORIGINAL CONTAINER, tightly closed, in a safe place.

EMPTY CONTAINER THOROUGHLY and dispose of safely.

DISPOSE OF EMPTY CLEAN CONTAINER BY RECYCLING. PROTECT FROM FROST.

UK Only: Dispose of unused product in its container at a household waste site (civic amenity site).

Contact your local authority for details.
