

Faithfull (FAIMFBM32)

Multi-Functional Tool Bi-Metal Flush Cut TiN Coated Blade 32mm

These Faithfull Multi-Functional Tool Bi-Metal Flush Cut TiN Coated Blades offer high-performance and have a durable titanium coating to harden and protect the cutting and sliding surfaces, providing an improved performance and a longer working life. Compatible with many multi-function oscillating power tools. This high speed steel, bi-metal blade features milled and side set teeth for a fine straight cut in hard and soft woods and will cut copper and aluminium pipes, sheet metal and plastics. Width: 32mm.
