

XMS (XMS22HEAD)

Lighthouse Elite LED Sensor Headlight

The Lighthouse Elite LED Sensor Headlight offers multiple light output options. One switch operates a 3 function 5W LED main beam with 3 output settings: high, medium and low. The other switch controls 5 functions: a 3W LED beam with high or low output and a red LED with solid, flashing and SOS functions. The 2 LEDs can be used independently or together. The light unit can be tilted and has a rubberised casing that is waterproof to IPX6 standard and impact-rated to 1m. A fold-out hanging hook further increases versatility. Its adjustable head strap can fit most sizes. The headlight has a maximum run time of 5 hours. A low power indicator LED on the front of the light warns you when the battery power is low. It is ideal for use around the home and for many leisure activities including camping, sailing, hiking and cycling and perfect for use in emergencies such as power failures or when working on cars.

Specification: Output: 300 lumens Modes: High / Medium / Low / Red Solid Flashing / SOS Run Time: 5 hours Beam Distance: 100m Light Source: 5W LED + 3W LED Power: 3 x AAA Alkaline batteries (supplied) Water Resistance: IPX6 Impact Resistant: 1m Dimensions: 60 x 45 x 35mm exc. strap Weight: 102g
