

XMS (XMS22SANDER)

Metabo FSR-200 Intec 1/4 Sheet Orbital Palm Sander 200W 240V

The Metabo FSR-200 Intec Orbital Palm Sander is a lightweight, handy machine for convenient one-handed operation, with a good weight to performance ratio, making it ideal for working overhead. It has dust-proof ball bearings for increased machine service life. The grip area is coated with a non-slip soft-grip surface for increased user comfort and safety. Its robust clamping system allows for attaching sand paper with or without Hook Loop. The Intec Dust cartridge with filter allows you to work without connecting to a vacuum cleaner. Extraction is possible via connecting to an all-purpose vacuum cleaner via an adapter (NOT supplied). Supplied with: 1 x Hole Punch, 1 x Intec Dust Collection Cartridge, 1 x Pleated Filter and 1 x Plastic Carry Case. Specification Input Power: 200W Oscillating Speed: 26,000/min. Oscillating Diameter: 1.4mm Base Plate: 102 x 114mm Cable Length: 2.8m Weight: 1.25kg
