

Place 1x (B) support on (A) base with cut out section facing outwards as shown.

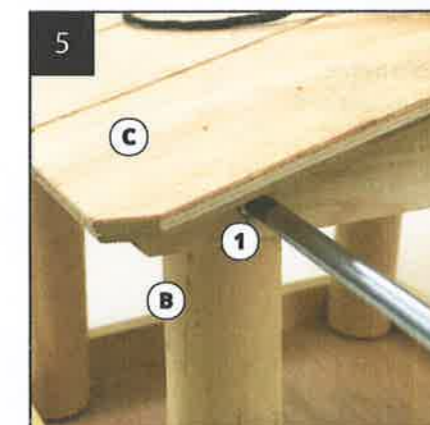

Attach 1x (B) to (A) as shown above using 1x (1).

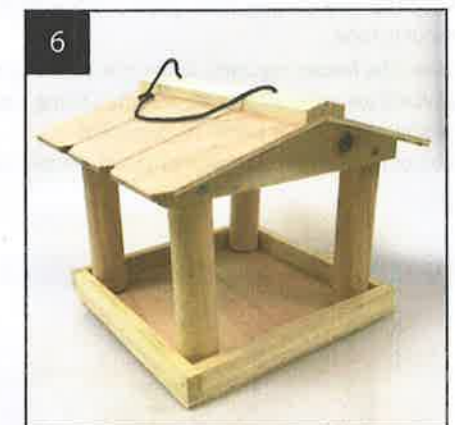

Repeat steps 1 and 2 until 4x (B) support are attached to each corner of (A) base.

Locate and place 1x (C) Roof to the top of the pre-assembled unit.

Secure the Roof (C) in place by inserting a (1) screw through (C) into (B) on each support.

Your product is now assembled, ensure that all the fixings are secure.
