STRONG ADHESION FOR A STRONG BOND

Whatever roofing felt project you're tackling, trust Black Jack® 904 Bitumen Roof Felt Adhesive to provide the solution.

For the ultimate solution to bonding roofing felt, try Black Jack® 904 Bitumen Roof Felt Adhesive. Specifically formulated for applying roof felt to itself, concrete, asphalt, metal, wood, and more, it provides a strong bond for a lasting finish.

- **Cold-applied:** No specialist equipment required, simply brush on straight from the tin.
- **High bond strength:** Forms a strong but flexible bond to ensure a waterproof finish.
- **Multi-application:** Bonds to a range of substrates for ultimate versatility.
- **Repair or protect:** Use to lay new felt or repair existing.
