

SIKAFLEX®-403 TANK AND SILO

Sikaflex®-403 Tank and Silo is a one-part, moisture curing, elastic sealant. Designed for sealing the sections of stainless-steel tanks and silos, it can also be used to seal domestic and municipal sewage systems.

BENEFITS

- **High resistance to acid** to withstand domestic sewage, liquid manure and silage liquids
- High chemical resistance to **avoid corrosion**
- **Movement capability** of +/-20% so can respond to load and pressure being applied
- High service temperature of up to 75°C
