Sikasil®-825

Neutral Construction Silicone Sealant

Ideal for:

- **Expansion joints** – provides flexibility to accommodate movement in external wall joints to prevent cracking
- **Perimeter sealing** – ideal for sealing around doors and windows for an airtight, weatherproof finish
- **Curtain wall and pre-formed panels** – creates a watertight seal between cladding panels for a durable, long-lasting finish
- **Glazing joints** – perfect for bedding and sealing insulated glass units, ensuring a strong bond

Available in a wide range of colours:
