

Stanley Storage (STS175763)

## FatMax® Sawhorse Trestles (Twin Pack)

The Stanley FatMax Metal Sawhorse has a huge holding capacity of 900kg. With a full metal construction, legs and frame, for a robust and sturdy structure. It has V-grooves that help to support round profiles and pipes, and rubber pads that create friction on the surface whilst cutting. The pair can be locked together to help form a larger surface. Fitted with flexible handles that are less likely to be damaged and for easy carrying. Specification: Max. Load: 900kg per pair Length: 111.7cm Height: 82.5cm Total Weight: 11kg
