

STANLEY® (STA016145)

FatMax® Folding Pocket Chisel 25mm

The Stanley FatMax Folding Pocket Chisel is ideal for job site work. The blade is made from hardened and tempered carbon steel for edge retention. It folds within the handle to fit in the pocket, preventing blade damage and trouser cutting. Fitted with a bi-material for comfort. It has a steel strike cap, which is suitable for use with a hammer.
