

STANLEY® (STA010594)

FatMax® Snap-Off Knife with Slide Lock 18mm

The STANLEY FatMax Snap-Off Knife is manufactured from hard-wearing stainless steel, delivering exceptional durability and longevity. Ergonomically engineered and encased with a rugged bi-material coating handle for a comfortable grip. An on-board snap line indicator helps to align the blade correctly to ensure a clean blade snap. With the unique blade-snapping mechanism there is no need to use secondary tools. When the blade loses sharpness, simply line up the blade, snap it and continue with a new sharp edge. Once the blade has been snapped, it will be retained by an integrated magnet for secure and convenient disposal. The slide lock provides improved blade depth control. It also features magnetic blade loading for additional safety.
