

STANLEY® (STA181337)

# Essential Metal Sawhorses (Twin Pack)

The Stanley Tools Essential Metal Sawhorse has an all-metal construction that allows use with clamps. They are easy to open and close, they fold down into a compact size and both of the sawhorses can also be clipped together, making them extremely easy to transport. Fitted with rubber feet that create friction on the surface during cutting, for added security and stability. Supplied as a Twin Pack. Specification: Max. Load: 340kg per pair
