

STANLEY® (STA047147) Compact Chalk Line 9m

The Stanley Compact Chalk Line is less than half the size, by volume, of standard chalk reels. It has a 9m precision line that snaps clean with accurate lines and a high impact ABS housing that is durable and light. It also has soft grip over-moulding that provides more user comfort and a secure grip. The 3:1 rewind gear ratio retracts the line 3x faster than a standard 1:1 reel. The chalk lines slide-open door allows for quick chalk refills and has a compact reel chalk capacity that gives up to 50 lines per refill. Also features a belt clip for easy transport and storage.

Line Length
9m
