

STANLEY® (STA096230)

# FatMax® Auto Wire Stripping Pliers

This Stanley FatMax automatic, spring loaded Wire Stripping Plier strips inner and outer sheaths on wires and cables 0.2-6mm. The pliers have crimping capability and are colour coded for crimps on common insulated and non insulated terminals 1.5-6mm. In addition, they also have an integrated wire cutter. These wire stripping pliers have an adjustable stripping depth, with a slider that allows fast pre-setting of pre-determined strips 6-18mm. In addition, they allow an adjustable stripping force for strips on smaller cables. They have bi-material handles, allowing easy grip and the simple application of large forces needed for crimping and stripping. Stripping capacity: 0.2-6mm. Cutting capacity: 0-10mm. Stripping length: 6-10mm. Crimp capacity: 1.5-6mm.
