

1200W BELT SANDER 100MM

T41200BS

Triton's T41200BS Belt Sander is host to many significant features, from variable speed control for improved versatility, to belt tracking adjustment for accurate alignment of the sanding belt.

Fitted with a powerful 1200W motor and with a large sanding surface area (100 x 156mm), the T41200BS sands with increased material removal rate and improved work rate.

The supplied inversion clamps and bench mounting mat enable the belt sander to be quickly and easily transformed into an efficient bench-mounted sanding unit by fitting to a stable workbench.

PERFORMANCE

Powerful 1200W motor delivers high performance

HEAVY DUTY

Heavy-duty metal base with large sanding area

CONTINUOUS CONTROL

Trigger control & lock-on button for continuous sanding

TECHNICAL PERFORMANCE

No Load Speed:	Wheel 2500min ⁻¹
